

2022 Supes Choice Category Discriptions

K-12 Newcomer Award

- While it is never a perfect time to launch a new Edtech solution, many intrepid entrepreneurs saw an opportunity to serve K-12 students in a new way. This award recognizes their courage and vision.

Equity Champion

- Every student should feel like they belong in their learning community, and the winner of this award is helping schools create an inclusive, equitable, and natural environment.

STEM / STEAM Instructional Solution

- This award will recognize a solution that provides students with experiential learning and the opportunity to collaborate, persist in problem-solving, take thoughtful risks, and work through the creative process.

Literacy Instructional Solution

- New ideas for helping students learn and master literacy are critical foundations for many other areas of learning, and this award will recognize an intentional approach to ensuring literacy for all.

Math Instructional Solution

- A critical area for student success, this award highlights math instructional solutions which bring an innovative approach to helping students progress towards successful mastery of Math.

Critical Thinking Instructional Solution

- More than ever, encouraging students to analyze and evaluate data, ideas, and opinions objectively will help them navigate local and global issues. This award will recognize a solution that nurtures critical thinking.

College and Career Readiness Solution

- The abundance of resources available to help students prepare for vibrant lives after high school is better than ever, and this award will go to a solution that is providing seamless pathways to college and careers.

Virtual Instructional Experience

- Whether offered as a private school or through a school district, virtual schools offer families a dynamic learning option that provides flexibility without sacrificing rigor. This award recognizes an inclusive virtual school solution.

SEL Solution of the Year

- The mental health of our students is more vital than ever, and solutions that help them navigate social and emotional landscapes also provide pathways for academic learning. This award recognizes solutions that help strengthen students' social and emotional well-being.

Keeping Kids Safe Award

- This award recognizes solutions that help protect students as they navigate an online environment and includes cyber security, physical safety, and food security initiatives.

Most Innovative PD Solution

- Providing teachers and administrators with engaging, flexible opportunities to understand current best practices and learn new digital learning solutions is critical to the

success of any partnership, and this award recognizes exceptional professional development.

Communications and Family Engagement

- Districts rely on agile solutions that help them upgrade their communications strategies to meet families where they are. This award goes to communication partners who provide in-the-moment ways to connect.

Learning Management System

- This award highlights the best-in-class LMS solutions allowing educators to plan, implement and access specific in the students learning process.

Operations/Finance/HR Solution

- This award recognizes solutions that often operate behind the scenes. They help districts operate, manage finances, and recruit and retain talented educators and support staff.
